

Philip R. Bikle Is Presented With Oil Painting Of Himself For 50 Years Service To Frat; Other Fraternities Hold Fetes

Philip R. Bikle, prominent Gettysburg insurance agent and graduate of Gettysburg college, was presented with an oil painting of himself by the local chapter of Sigma Chi at a dinner Saturday evening at the Adams House held in connection with Interfraternity week-end at the college.

The painting, 20 x 24 inches, framed, was presented by Harry Reynolds, president of the fraternity, in "appreciation of 50 years of service to the Sigma Chi fraternity." It will hang in the local fraternity house. Mr. Bikle's father, the late Dr. Philip M. Bikle, was one of the founders of the fraternity here in 1863.

Received National Honor

Mr. Bikle, who has remained the most active member of the fraternity and has served longer than any other member, is also a member of the Order of Constantine of the national fraternity. This honor and medal was conferred upon him by the national group "for long and continued and outstanding service to the Sigma Chi."

Only 63 of the 45,000 members of the Sigma Chi are members of the order.

The local man responded briefly after the presentation of the painting. Glenn Todd, of Carlisle, Great Praetor of the West Virginia and Western Pennsylvania Province, also spoke briefly.

Scores of telegrams from nearly every state in the nation were received by Mr. Bikle.

Organ Fund Goes "Over Top"; Use Surplus To Paint Church

The drive for voluntary contributions to a fund to purchase a new organ for St. Paul's A.M.E. Zion church, Gettysburg, went "over the top" by a comfortable margin over the week-end thus assuring the local congregation of a new musical instrument in time to be dedicated Easter Sunday morning.

Contributions up to noon today totaled \$1,430.03.

In addition to this amount there are several other donations which are expected to be made in a day or two which may bring the total to approximately \$1,500.

The new organ which the congregation has selected will be purchased this week. Whatever changes at the church that will be required for the new instrument will be done before the Easter service.

May Paint Interior

Whatever surplus remains and whatever additional donations are received will be turned into a fund to paint the interior of the church, a sorely needed improvement. If sufficient funds are received, and sponsors of the drive are confident they will be, the interior will be painted before the Easter service of dedication.

It's Your Duty To Vote

Priceless Heritage — Patriotic Duty

By LEIGHTON C. TAYLOR

Permit me to introduce this subject with a forthright statement: THE GOVERNMENT OF THESE UNITED STATES BELONGS TO US—THE PEOPLE—TO YOU AND ME. IT IS OUR BUSINESS. EITHER WE MUST RUN IT, OR IT WILL RUN US, which, as a matter of fact, it is now doing to an alarming degree.

It was not by chance that the framers of our Constitution began with the phrase, "We The People." Above everything else, it was their purpose to make this a government, as Lincoln later described it, "OF THE PEOPLE, BY THE PEOPLE, FOR THE PEOPLE."

The fundamental purpose of both the Declaration of Independence and the Constitution of the United States was to protect the God-given rights of the individual against infringement from any source. It took a bloody and bitter Revolution to establish these rights, yet today we blithely toss them away by neglecting to register and vote.

It should be borne in mind, of course, that this article is not written

3 AUTOS, PORCH, SIGNS, METER HIT IN CRASH

Three automobiles, a front porch, a highway route marker, a bus stop sign and a parking meter were involved in an accident in the square at Littlestown at 3:20 o'clock this morning.

Authorities said Herbert Griffin, Reading, Pa., failed to stop for a red blinker light at the square. His car and one operated by Sgt. Tadeusz Piotrowsky, Scranton, stationed at Bolling Field, Washington, crashed.

Griffin's car was thrown out of control and struck a parked car owned by R. E. Hoke, Hanover. It also knocked over the signs and struck a parking meter, and caused \$200 damage to the front porch of the home of Mrs. L. G. Stavelly, 21 East King street.

Faces Charge

No one was injured in this multiple fracas, police said. Damage to the Piotrowsky car, in which three other soldiers were also riding, was estimated at \$850. Damage to the Griffin car was figured at \$300, and to the Hoke car at \$75.

Police Officer E. Paul Bigalow said he would file a charge of failing to stop at the red blinker against Griffin, and a ten-day notice would be mailed to the Reading man.

Piotrowsky was driving south on North Queen street, and Griffin's car was traveling east on West King street, according to the police report.

400 PERSONS AT CHAPEL SERVICES HERE ON SUNDAY

Dr. Andrew G. Truxal, president of Hood college and former national president of Phi Kappa Psi fraternity, told more than 400 undergraduate and alumni fraternity members at the 17th annual Interfraternity week-end chapel service in Brua chapel Sunday that "the fraternity at its best is instilling in man the foundation of honesty and intellect that should be instilled by the college itself."

Basing his sermon on excerpts from verses 26 and 27 of the 12th chapter of Hebrews: "Yet once more I shake not the earth only, but also heaven . . . that those things which cannot be shaken may remain."

Cites Three Factors

Dr. Truxal said that three things which cannot be shaken are: "Man has found it is not possible to live without God. Man has discovered that the way in which to win respect and reverence from one's fellowmen is to give respect and reverence in return. Your ego is going to continue to cry out to give meaning to life. The only way to completely develop your ego is in a complete giving of yourself."

Dr. Henry W. A. Hanson, president of the college, gave the invocation and Howell Foster read the Scripture. The anthem was sung by the Minneshingers and Dr. Truxal pronounced the benediction.

ARREST WOMAN IN HUGE THEFT

Flagstaff, Ariz., March 17 (AP)—A 26-year-old brunette was held in jail here today as the possible finger woman of the \$1,500,000 Redfield burglary in Reno.

FBI agents said she was arrested with \$50,000 of the stolen cash, 28 pieces of jewelry which might have come from La Verne Redfield's safe and a large package of securities. The jewelry and securities were being checked to see if they belonged to the eccentric Reno stockbroker.

The woman is Mrs. Marie Jeanne D'Arc Machaud, who had been Redfield's guest so frequently he was "shocked and greatly upset" by her arrest. "Why, I trusted her implicitly," he said.

The blue-eyed French-Canadian writer-artist in the sixth person arrested in connection with the Feb. 29 burglary. Four are men, two women.

Mrs. Machaud was arrested yesterday on the California limited enroute to Chicago. She was arraigned on charges of conspiring to transport stolen goods across state lines. Bail was set at \$100,000. The \$50,000 which FBI agents said she carried was the biggest piece of loot yet reported recovered. Arresting agents made no estimate of the value of securities or jewelry she carried.

Redfield reported \$300,000 cash, some \$250,000 in jewelry and \$1,000,000 to \$2,000,000 in securities was stolen. Almost simultaneously with her arrest agents hoisted the safe from a well concealed mile shaft in desolate country near Reno. It was smashed and empty.

"IKE" SILENT ON HOFFMAN CLAIM

Paris, March 17 (AP)—Paul Hoffman said today he told Gen. Dwight D. Eisenhower "it would make it a great deal easier" for his political supporters if he would come home. He told reporters he got no answer.

Hoffman, one of the general's chief supporters for the presidency, said he told the supreme Allied commander of concern in the United States that his nomination might be "put in jeopardy" if he does not return before the Republican convention, in July.

He said, after a series of conferences with Eisenhower over the week-end, that he knew as little about Eisenhower's plans in this respect as he did before he got here. Hoffman, former chief of the Economic Cooperation Administration and now chairman of the philanthropic Ford Foundation, said he personally did not share the concern of the general's backers, but that he felt it his duty to acquaint Eisenhower with it.

Hoffman met the general for an hour here this morning, remained for lunch, then scheduled a later meeting with the general this afternoon. This morning's meeting, he said, was spent chiefly in listening to the general talk about the North Atlantic Treaty Organization and European defense.

STEEL DISPUTE NEARING CRISIS

Washington, March 17 (AP)—The steel labor dispute headed today into a week of crisis with the industry planning to start shutting down Tuesday in anticipation of a strike at midnight Sunday.

Some loss of steel, sorely needed by both defense and civilian industry, seemed inevitable because the steel makers wanted to be sure their blast furnaces were emptied of hot metal in advance of any stoppage.

Philip Murray, head of both CIO and the strike-threatening steelworkers union, withheld action until Thursday on a request by the Wage Stabilization Board (WSB) for a new strike postponement.

Murray already has put off strike plans three times since Jan. 1. Government officials said they believed he will do so again.

Thursday is the same day the WSB has fixed as its target date for getting out recommendations for settling the complex dispute—involving Murray's demands for an 18½ cent hourly pay boost and a score of other items. The steel workers presently earn a little under \$2 an hour.

Motorists Notified Of Code Violations

A ten-day notice was sent by Squire Baschore to Harry H. Walburn, Ohio, on an overweight charge, filed by state police.

John E. Grizzard, Atlanta, Ga., forfeited a \$25 fine and costs on an overweight charge. He was arrested Sunday by state police.

Gilbert L. Blackburn, Whiteville, N. C., forfeited \$2 and costs to Squire Snyder on a charge of illegal parking filed by state police.

DELAY DECISION ON CALLING "IKE"

Washington, March 17 (AP)—The Senate foreign relations committee today put off a decision on whether to ask Gen. Dwight D. Eisenhower to fly home and testify on the \$7,900,000,000 foreign aid bill.

After an hours committee discussion behind closed doors, Chairman Connally (D-Tex.) announced it had been decided to delay action on a motion by Sen. McMahon (D-Conn.) to request testimony for Eisenhower.

Connally said this was done because "several" committee members were absent. As far as reporters could see, only Sens. Lodge (R-Mass.) and Brewster (R-Me.) were not present.

Lodge heads the Eisenhower-for-President committee. Brewster is a supporter of Sen. Robert A. Taft of Ohio for the Republican presidential nomination.

McMahon told the Associated Press the effect of today's session was to postpone any invitation to Eisenhower until after his chief deputy, Gen. Alfred M. Gruenther, has testified. McMahon said he will bring the matter up again at that time.

The drive for \$400 for the Adams County 4-H clubs passed the halfway mark today with Assistant County Farm Agent Fred Attinger, treasurer for the drive, reporting that \$220 has been donated so far by 55 donors.

The fund is being raised to provide premium pools, leadership training for heads of the 300 farm youth organization in the county, a day camp, and other activities of the 25 4-H clubs in the county. In previous years a number of drives were made during the year by the clubs to obtain amounts needed for various activities. This year a combined drive is being held to obtain in advance the amounts needed to cover the expenses of the organizations.

Three Wills Are Placed On Record

Three wills disposing of more than \$23,000 have been entered for probate at the office of the county register and recorder.

KINER SIGNS WITH PIRATES FOR \$75,000

San Bernardino, Calif., March 17 (AP)—Ralph Kiner, the Pittsburgh Pirate home run slugger, has reason to smile this St. Patrick's day—he's negotiated a new one-year contract for \$75,000—making him the third highest paid player in the majors.

Stan Musial of the St. Louis Cardinals and Ted Williams of the Boston Red Sox have better contracts than the Buc slugger who has been writing records since breaking into the majors in 1946.

Musial is reported to be receiving \$80,000 this season while Williams has signed for an estimated \$100,000. There's considerable doubt whether Williams will collect. He's due to take a stiff physical examination prior to being called to active duty soon as a marine pilot.

Kiner was all smiles when the Pirates announced the signing at Oakland yesterday.

Sought 2-year Pact

Kiner previously said he wanted a two-year pact to replace the one which expired last year. But he got the raise he was after. He reportedly received \$65,000 a year under the old contract.

Kiner had received special permission from general manager Branch Rickey to negotiate directly with John Galbreath, president of the Pirates. Last year he worked out a contract with Galbreath which had a special arrangement whereby part of the \$55,000 came from Galbreath and the remainder from the Bucs.

This year there's no split arrangement and Kiner gets his entire \$75,000 from the club.

Kiner's only comment was, "Mr. Galbreath called me about four days ago and suggested terms. I was given a copy of the contract and, after thinking it over completely, signed. I received a boost over last year."

Baseball Training Camp Briefs

Phoenix, Ariz., March 17 (AP)—The New York Giants are missing the leadoff qualities of Eddie Stanky, their old top-of-the-order man.

Whitey Lockman, who has been given Stanky's former assignment, has collected only four hits in 22 trips to the plate.

Clearwater, Fla., March 17 (AP)—Steve Ridzik, a 22-year-old right-hander up from Baltimore of the International league, is tabbed "the best looking pitcher in camp" by Philadelphia Phillies Manager Eddie Sawyer.

In his latest outing, Saturday, the Yonkers, N. Y., native gave the St. Louis Cardinals one hit in two innings and received credit for the Phillies' 4-2 victory.

Ridzik broke into the Philadelphia farm system at 16 and has advanced up through Schenectady, Wilmington, Utica, Toronto and Baltimore.

Tampa, Fla., March 17 (AP)—The Philadelphia Athletics squad is glad Manager Jimmy Dykes isn't with them today. Dykes is battling the flu at the A's West Palm Beach camp.

Two reasons they are happy: Dykes wouldn't have enjoyed yesterday's 8-0 shellacking the club took at the hands of the Philadelphia Phillies; and this way there is no chance of an epidemic of the flu getting a start. Last year almost everyone in camp was in bed for a couple of days.

San Bernardino, Calif., March 17 (AP)—Not long ago Bill Meyer, Pittsburgh Pirate manager, said Jackie Merson is a sure starter at second base.

Since then Merson has been playing top ball and today was more than happy with his sparkplug. Yesterday Merson not only handled eight chances in the field flawlessly but came through with three hits in five trips as the Bucs beat Oakland of the Pacific coast league, 7-4. Two of Merson's hits were doubles, one scoring three runs.

Burbank, Calif., March 17 (AP)—One thing the "new" St. Louis Browns appear to lack so far is a long-ball hitter, but Manager Rogers Hornsby isn't too worried.

"Sure I'd like to see the boys start rapping those extra base hits," the rajah commented, "but the main thing is to get the hits and win the ball games. That's what we are doing, aren't we?"

The Browns have won four of their six exhibition games.

Los Angeles, March 17 (AP)—Wild Matthews, Chicago Cubs' personnel director, today charged that most major league clubs are too money hungry during the exhibition playing campaign.

"Managers should be free to try out any rookies they want without being obligated to play the regulars so that more customers can be lured through the turnstiles," he said. "How can you whip a team together when you have to play your stars instead of your rookies just to get a good gate?"

Alarmed rather belatedly at the storm they have fanned, but still feeling pretty stubborn, the men who own and run the coast league have decided to hold a meeting, too. They will be there handy just in case the big leaguers desire a word with them, as they most certainly will.

Can't Predict

No one—much less the baffled big leaguers—can make an intelligent prediction on what will happen. The training clubs cannot dabble with an exhibition schedule—or, at least, they say they will not—until the coast league's edict is rescinded or modified.

Unless there is a compromise of some sort, California probably will have seen the last of at least three big league teams—the New York Giants, the Cleveland Indians and the St. Louis Browns. All three have said they will haul out. The Giants and Indians say they will continue to train in Arizona but head east and down into Mexico on their exhibition tour.

Some think that Branch Rickey would be happy to move the Pittsburgh Pirates from San Bernardino to Florida, his old stamping grounds. They have been struggling against unusually poor spring weather at San Bernardino, as have all the other teams in this vicinity. Weatherwise, if for no other reason, the coast magnates picked a poor year to get tough.

A baseball man who has been watching the rain come down for two or three days while his idle athletes chomp on \$5 steaks is inclined to become jumpy.

FOUR GARDNER COACHED LADS MAT CHAMPIONS

Bethlehem, Pa., March 17 (AP)—Penn State owns the Eastern Intercollegiate Wrestling association championship again today—thanks to three boys who were teammates in high school.

But a fourth high school teammate kept the Nittany Lions from another individual title.

Penn State's brother combination—Dick Lemyre in the 130-pound class and Joe Lemyre in the 167-pound class—won titles at the weekend tourney here. It was the first time brothers had won in the same year.

The Lemyre brothers attended Wellington C. Metham high school in Bethlehem, N. Y. So did 123-pound Bob Holman who was the Nittany Lions' only other titlist.

And so, too, did Lehigh's captain, George Feuerbach, who decided to Penn State's Jerry Maurey in the 137-pound finals. Feuerbach, who won his third straight title, also was awarded a trophy as the outstanding wrestler in the tourney.

Sitting in on the finals was Frank (Sprig) Gardner, formerly of Gettysburg, coach at the Long Island school, who had developed each of the four titlists. Gardner's teams have won all but one of their last 192 dual meets.

Penn State's 33 team points put it far ahead of runner-up Syracuse with 17.

Other team scores: Rutgers, 16; Lehigh, 15; Army and Brown, 12 each; Princeton, 10; Yale, 8; Cornell, 7; Brown and Navy, 6 each; Harvard, 3; Franklin and Marshall and Temple, 2 each, and Virginia, 1.

New Investigation Looms For Morris

Washington March 17 (AP)—Government cleanup man Newbold Morris, fresh from one investigation in which he verbally slugged it out with senators, was booked today for another within a month.

Sen. McCarran (D-Nev.) announced he will call Morris before his Senate Judiciary committee "before the Easter recess" to tell under oath whether he ever was associated with Communist front activities.

Rep. Potter (R-Mich.) has told the House in a speech that Morris came to the government cleanup job with "a sordid background" of association with Communist front groups. Potter said this is recorded in the files of the House un-American Activities committee.

Morris has vigorously denied he ever consciously had anything to do with Communist front groups. In a recent letter to Sen. Mundt (R-SD), who questioned him about it, Morris said he is "not a subversive individual."

Trouble Likely In Internal UAW Row

Detroit, March 17 (AP)—Having fired five minor officials, an administrative board of the CIO United Auto Workers moves today to take over headquarters of the world's largest local union, Ford 600 of the UAW.

But there was the possibility of trouble as the administrative board prepared to move in.

Recording secretary William R. Hood of the local vowed: "I'll not physically give up my office. I refuse to abjectly surrender without counsel with my membership." The five officials were ousted from their posts yesterday.

The six-member administrative board was instructed to take over the Ford local by the UAW executive board after witnesses testified before the House un-American Activities committee here that Communists had infiltrated the ranks of officers and dominated actions by the local's general council.

ONE HUNDRED YEARS AGO

A splendid service of silver plate has been presented by the attaches of the Central Railroad to Mr. Herman Haupt, as a testimonial of their high appreciation of his eminent services while General Superintendent of the Road. The Telegraph says they have never seen a set of silver plate more beautiful in design and more chaste in execution.

Married: On the 14th inst., by Rev. Jacob Ziegler, Mr. Jameson Myers, of Menallen township, to Miss Elizabeth Comfort, of Butler township.

On the 17th inst., by the same, Mr. Peter Hummer, of Tyrone township, to Miss Lydia Stouffer, of Virginia, formerly of Adams county.

On the 14th inst., by the Rev. G. W. Aughinbaugh, Mr. William Upton Sprengle to Miss Nancy Maria Seabrooks—both of this county.

Bonnets! Bonnets!—Mrs. E. Gilbert has just received from the City a large supply of beautiful BONNETS, of the latest style—to which she invites the attention of the Ladies of Gettysburg and vicinity. Gettysburg, March 15.

The Spring Election: Our Whig brethren throughout the County will bear in mind that on Friday next the election takes place for Judges of Election, Inspectors, Assessors and Constables. It is important that attention should be paid to this election, as the Judges and Inspectors are to act at the Presidential election, and it is well to see that we have "good men and true."

Naval Expedition to Japan: A squadron of American vessels of war, composed of three war steamers, three sloop-of-war, a brig and a storehouse has been ordered to the East Indies and will be under way in a few days. The object of the expedition is to effect a landing at Jedda, the capital of Japan, at all hazards, and orders have been given to make various expeditions on shore, and to leave no efforts untaken to open a commercial intercourse with that long-sealed people. Com. Perry commands the squadron, that will be absent about 18 months.

SEVENTY-FIVE YEARS AGO
On Thursday evening three adventurous youths of this place, who had acquainted themselves with the extraordinary inducements offered in Texas, determined to seek their fortune in that "promised land." On Cemetery Hill they took the last look at the place of their nativity, and tramped as far as Little-town where the thoughts of home overcame their desire to see the wilds of Texas. They concluded to return and be contented with their lot.

Married: Kohn-Welkert.—On the 15th inst., in this place, by Rev. Dr. Kieffer, Mr. John I. Kohn, of New York, to Miss Mary C. Welkert, of this place.

Thomas-Baer.—On the 11th inst., by Rev. A. J. Heller, Mr. David Thomas to Miss Deillah Baer, both of Ardenville.

Deardorff-Beamer.—On the 13th inst., by Rev. T. H. Tubbs, Mr. John Deardorff to Miss Jane Beamer, both of Adams county.

W. H. Tipton & Co., send us several copies of very fine photographs, imperial size, of the noted Indian scout, "Texas Jack," who visited Gettysburg some weeks ago and visited Mr. Tipton's gallery. Appointment: President Hayes has re-appointed Mr. J. W. Grist, formerly of this county, Indian Agent for Otter Agency, Nebraska. The Senate adjourned without confirming the appointment.

Today's Talk

By GEORGE MATTHEW ADAMS
THINK—BUT TO A PURPOSE

We can accomplish almost anything within our ability if we but think that we can! Every great achievement in this world was first carefully thought out. I recently read that this motto hung upon the workshop of Thomas A. Edison: "It is remarkable to what lengths people will go to avoid thought." Edison was a thinker — and his thoughts crystallized into an amazing number of inventions that have blessed the world.

When confronted with a problem, or emergency, our only salvation is to think ourselves out. We can't depend upon others to save us. We can well have, as one of the most useful mottoes of life, ever before us, that one—THINK!

I have often stood before that great bronze of Rodin's "The Thinker" and wondered what the sculptor had in mind as he created that outstanding work of art. Just to look at it is enough to make anyone think. Thinkers are always creators.

We may read a great many wonderfully interesting books, but it is always the thought the author has put into his book that makes it notable and instructive. In reading the recently published book "The Sea Around Us," most of the material could have been gained from books and the author's own investigations and experiences, but it is the thought that the writer wrapped it all up in that has made it such fascinating reading, and so outstanding.

We often hear the expression about a certain person that he thinks things out. We like to associate with such people for they inspire us to think things out for ourselves. What a multitude of possible miracles are housed in the human brain! As the humorous poet, Walt Mason, once wrote: "O human head! Majestic box! O wondrous can, from labels free! If man is craving fame or rocks, he'll get them if he uses thee!"

Think—but to a purpose. Think constructively. Think as you read. Think as you listen. Think as you travel and your eyes reveal new situations. Think as you work daily at your desk, or in the field, or while strolling. Think to rise and improve your place in life. There can be no advancement or success without serious thought.

Tomorrow Mr. Adams will talk on the subject: "A Beloved Executive."

ST. PATRICK'S DAY MEMORY
Long years ago, ere luncheon clubs had learned to do the hat trick.

The parish ladies planned a feast in honor of St. Patrick.

The hall was trimmed in Erin's green and always green the salad.

The tenor of the choir was there to sing an Irish ballad. As I recall those glad affairs (so far the memory reaches).

The women made the supper and the menfolk made the speeches.

The gentle padre of the flock beseeched the good Lord's blessing.

Then up and down the tables long went chicken and the dressing.

In those days food was plentiful and many were the courses.

At fifty cents a person, all who came could eat like horses.

I still can see the smiling priest among his children walking.

When the women did the serving and the menfolk did the talking.

St. Patrick is remembered still, but now, with price inflation.

Almost forgotten seems to be the old-time celebration.

"The minstrel boy to the war is gone," but silence makes me wonder.

Does no one sing of the lad who tore the strings of his harp asunder?

And where are those golden tongues of old (today we sadly need 'em).

When the women did the dishes and the menfolk spoke for freedom?

Weekly Farm And Garden Section

Menu Of Summer Meals Is Guide For Garden Schedule

To prepare a production schedule for a Liberty garden is a matter of arithmetic. Take carrots, for example. How often do you serve carrots to your family? Once a week, twice a week, or three times? It should not be hard to decide that.

The harvest of carrots from a single sowing will last in top condition at least eight weeks. During that period, say, you will serve carrots 16 times, or twice a week. A row of carrots two feet long will provide an ample serving for the average family. So your first sowing of carrots should be 32 feet long.

This should be followed by a second sowing, timed to mature when the first crop has been harvested; and three sowings should see you through the season, so far as table use is concerned.

If you will estimate the number of family servings each week you expect to use of all short-harvest vegetables, you can figure out the number of sowings, and the length of row for each, from the data in the accompanying table.

This lists the vegetables, of which several sowings should be made, and gives data to enable you to plan successive sowings, and also the space which will be required for each crop, in order to produce enough for family needs, without waste.

Column 1 gives the time each harvest lasts from one sowing, and in Column 2, the space to plant in the garden row, to provide one serving for a family of four.

Data on days to table size is given in most seed catalogues for every vegetable variety. Early varieties of lettuce will be ready in 40 days; while late head lettuce may take 90 days to mature. By sowing early and late varieties at the same time, you

can have a long harvest. This is advisable for sweet corn, because late

varieties do better in late summer and early fall weather. But this practice requires more space, since the slow maturing varieties occupy soil which could be used for something else, if a succession of quick growing crops were sown.

Peas, lettuce, radishes and spinach will not do well in July and early August, so do not plant these crops to yield in hot weather, but sow them for early summer and fall harvests only. All the others should be sown two or three times, or more, with the last sowing timed to mature before killing frosts arrive.

Do not follow a leaf crop, seed crop, or root crop with one of the same class; but use a different type, to avoid disease and soil exhaustion.

Before sowing a second crop, dig up the soil and apply plant food again, two pounds to 100 square feet, or 100 feet of row.

NOTES ON FEEDING SHADE TREES

Shade trees in the home grounds or along streets and highways are not in their natural surroundings. Inherently they belong in forests where the soil is fertile, deeply mellow, and acid from centuries of decaying leaves. When man brings them out to serve him for ornament and shade, they lose the protective companionship of other nearby trees and are compelled to grow in fierce competition with unfavorable soil conditions and general environments. And in their circumscribed

familiarity with the intricate work of the Post-office, promptness and uniform courtesy have largely contributed to popularizing its administration.

Notary Public: Governor Hartman has appointed Jacob A. Kitzmiller, Esq., of this place, Notary Public in place of J. M. Krauth, Esq., resigned.

Burnt: On Sunday night, about midnight, the tenant house of M. D. H. Rieman, Liberty township, was found to be on fire and was burnt to the ground. The tenant, a Mr. Wenschoff, lost his furnishings and wearing apparel. The building was insured in the Adams County company for \$200.

The Weather has been unusually severe for so late in the season. Spring evidently has not yet come. Several inches of snow fell this morning.

Among the appointments of the Central Pennsylvania Conference of the Evangelical Association which met at Williamsport, Penn., is B. F. Keller of Bendersville.

Work has been commenced on a Reformed church at Cashtown.

out in the surrounding soil, distant from the trunk equal to the spread of the widest limbs. In fact, the fertilizer should be applied in a broad belt, starting several feet from the trunk and extending out a few feet beyond the reach of the longest branches. Most foods and moisture furnished trees up close to the trunk are wasted.

An effective way to apply the fertilizer where soil is maintained beneath trees is to make several concentric circles of holes in the soil, using a soil auger or iron bar. The holes should be 8 to 14 inches deep, depending on depth or shallowness of the particular soil. They should be about 18 inches apart each way. The quantity of fertilizer set aside for each tree should be equally divided among the holes, poured in through a funnel, and gently watered to dissolve it into the soil. The holes may then be plugged with sod or peat moss and left to facilitate watering in dry weather and yet not result in loss of soil moisture by leaving them open.

And how much fertilizer does a shade tree need?

The rule is simple: Apply 2½ pounds for every inch of trunk diameter three feet from the ground. For example, a tree that measures 10 inches through its trunk at about waist height needs 25 pounds of fertilizer. This is approximately 12½ ounces for each inch of trunk circumference.

Shade trees are among man's most nearly indispensable possessions. Their full value in terms of beauty and comfort cannot be appreciated until one visits lands from which trees have disappeared. A tree worth having is worth feeding to promote its health and to enhance its attractiveness.

START PEPPER PLANTS SOON

Peppers are native to tropical America but actually were domesticated in European gardens before they became popular as a food plant in the United States. Dried pods of Cayenne peppers have been found in prehistoric burial mounds among the ancient ruins of Peru. Historical records of Columbus' first voyage include descriptions of "hotte" peppers growing in the Caribbean islands. And it was on the second trip to America that a member of the discoverer's crew took pepper seed back to the old world. Until comparatively recent years sweet peppers were grown mainly for garnishing and seasoning, but with the knowledge that they are rich in valuable vitamins, especially when eaten raw in salads, sweet peppers have come into their rightful place among leading vegetables.

Seed should be sown in a sunny window box or hotbed eight to nine weeks before weather conditions permit transplanting peppers to their growing place. Because they are extremely sensitive to frost or low temperatures, peppers should not be moved to outdoors before the middle of May. This computation indicates that seed should be sown around the middle of March in order to have large, sturdy plants ready by final transplanting time.

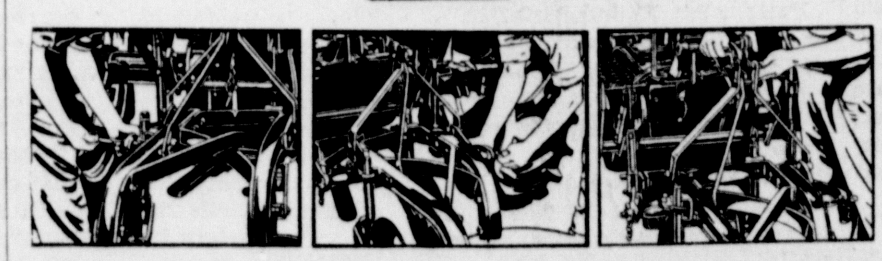

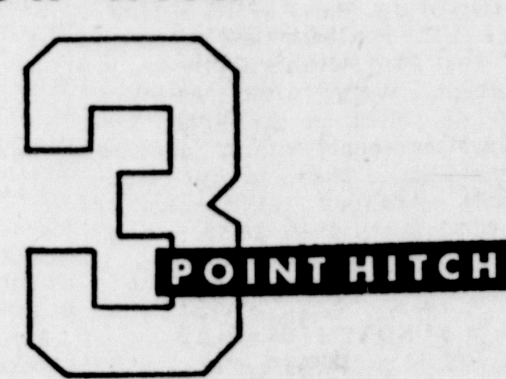

Individual pots or bands are recommended for peppers to afford plants plenty of room so growth will not be tall and spindly. And excellent method is to sow seed in a flat of light, sandy loam and then move the small seedlings to individual containers as soon as two or three leaves develop. Thereafter

drated lime, and sow at once. This treatment prevents anthracnose and black spot (alternaria blight).

In addition it may be advisable to spray transplanted pepper plants with Bordeaux mixture every week to 10 days until the first blossoms open. And because peppers belong to the same family of plants as tomatoes and potatoes, they should be rotated to clean soils each year where neither they nor their relatives have grown in recent years. Too, all crop refuse should be gathered and burned before winter. Of course, the editor invites all questions readers wish to ask about this fine vegetable and its culture.

Says Russians Carry Their Liquor Better

London, March 17 (AP)—A British researcher announced Friday Russians, Italians and Jews carry their liquor better than anybody else in the world—and the people who carry it worst are Americans, Swedes, Irishmen, Norwegians and Finns.

The findings were reported in the Lancet, a British medical magazine, by H. Pullar Strecker, superintendent of a mental hospital at Isleworth.

"Not only individuals, but whole nations or races have better heads for alcohol than others," he declared.

"At the top of the scale come the Irish, who are notoriously prone to pathological alcoholism. At the bottom comes the Jewish race, in which alcoholism is remarkably low."

Laboratory tests have not revealed the cause of the infection. The children's ages ranged from eight months to seven years.

Three of the children died Tuesday and a fourth victim died yesterday. He was Frank Hulanick, Jr., of Kingston, who died in Nesbit Memorial hospital.

Two others, Linda Jane Andrews, 8 months, of Larksville, and Joanna Lechak, 20 months, of Trucksville, also died of the infection at the hospital, doctors reported. Nancy Grodis, 7, of Exeter, died in Pittsford hospital.

Letter to the Editor

Dear Sir:

Much is being written about nutrition in our times: It is a very vital subject.

Your school lunch program involves the general health and well being of your child today and in his future. Therefore, it deserves public interest.

Our school lunch program sets as the aim of local school lunchrooms these three things:

(1) To make available to children at minimum cost attractive lunches of maximum nutritive value.

(2) To train children in intelligent discrimination in the selection of foods.

(3) To help in the social development of the children.

Your high school cafeteria serves the Type A lunch which is a complete lunch, can be either hot or cold, and provides one-third of one day's nutritive requirements. It contains:

(a) One-half pint of whole milk as a beverage.

(b) Two ounces of fresh or processed meat, poultry, cooked or canned fish, or cheese, or dried beans, or dried peas, or peanut butter, or eggs. These protein requirements may be met by serving one-half the required quantities of any two proteins.

(c) Six ounces (three-fourth cup) of raw, cooked, or canned vegetables, and/or fruit or fruit juices.

(d) On portion of bread, muffins or other bread made of whole grain cereal or enriched flour; and

(e) Two teaspoons of butter or margarine which can be either served at the counter or used in cooking.

Children of all ages need three good meals a day. Only through foods of high quality can children obtain their total nutrition needs for energy, for protein, for the minerals, calcium and iron and for the vitamins A, B, C and G. The school lunch program furnishes only one of the needed three daily meals. Your local cafeteria strives to fulfill these nutritional requirements. Breakfast and dinner are the responsibility of the home.

Sincerely,
Mrs. Paul S. Burkholder

Claim Restaurants Breaking Oleo Law

W. S. Hagar, deputy agriculture secretary, announced that department food agents are opening a new drive against oleomargarine law violators.

Hagar said the drive was ordered after the department received reports that violations have been "stepping up."

The agriculture deputy reported most of the violations involve the serving of oleomargarine by eating establishments. He added that some places have been using the product in place of butter without displaying the fact by means of placards as required by law.

GREEK ROMEO'S ROMANCE ENDED

Athens, Greece, March 17 (P)—A court annulment has brought to a legal end the marriage of Crete's impetuous modern-day Romeo, Costa Kephalyonnis, to his Juliet.

The end of the match, which once threatened to revive clan warfare on the island, was peaceful. Kephalyonnis did not appear in court at Herakleion nor offer any defense. The bride, Tassoula Petragiorgi, was represented by her father, a parliament member, who had instituted the proceedings.

Kephalyonnis abducted sultry-eyed Tassoula in August, 1950, and fled with her to a mountain hide-out. He was later sent to prison for bearing arms at the time he captured her. She stuck by him, and they were reunited. The romance cooled earlier this year, however, and she went home to her father.

Tassoula said she had never really loved him. Kephalyonnis said he was relieved she was gone.

"I only feel sorry," he said, "for having loved so much a woman without heart, without feelings—a selfish creature."

POLITICAL FOES MIX IN SHOOTING

Philadelphia, March 17 (P)—Two old political foes had a new argument today—this time over a mystery shooting that involved bullets, broken glass and a blonde.

Former Republican City Chairman William F. Meade, 47, was wounded in the shooting yesterday. He claimed he suffered cuts of the ear lobe, neck and a finger from flying glass when an unidentified assailant fired three shots through a window of a mid-town Philadelphia hotel.

Democratic District Attorney Richardson Dilworth said "on the basis of information I have received, Meade was shot by Miss Virginia Carroll in the lobby of the Minerva hotel. It seems perfectly clear to me that the shots were fired from inside the lobby."

Inspector John T. Murphy of Philadelphia police told a reporter that Meade had been shot. He said the lobe of Meade's ear was shot away by a bullet.

Dilworth identified Miss Carroll, 33, as a former docket clerk in the DA's office. He said she now works in the jury commissioner's office.

Stomach Surgery Is Televised Sunday

Philadelphia, March 17 (P)—Not even a surgical operation can escape the television camera and viewing public any longer.

With official medical permission (and the patient's OK) TV entered the privacy of a University of Pennsylvania hospital operation room yesterday. The cameras took in a surgeon and his staff as they completed a 2½ hour operation in which 85 percent of a man's stomach was removed.

Dr. I. S. Ravdin, chief surgeon, described the operation to the TV audience in the Philadelphia area. Station WPTZ did the telecast, believed the first of its type ever seen by the general public. Surgery has been televised before to medical conventions and schools.

A few persons who telephoned the station called the show "interesting and educational." There were no complaints about invasion of privacy. Ten minutes of the lengthy surgery was put on the screen. The patient, unidentified, could not be seen as he lay on the table. Nurses and doctors obscured his body.

The party committees are as follows: Refreshment, Marguerite Koonz, Velma Eyer, Clara Jacoby, Ruth Ripka and Catherine Simpson; prizes, Ruth Weaver, Elda Gage, Mildred Sentz and Florence Studt.

ten to boost the stock of any political party or candidate. On the other hand, your correspondent wishes to stress, as strongly as possible, the importance of voting in all elections. If a qualified voter neglects to fulfill this obligation of citizenship, he shouldn't be heard to complain of irregularities, inefficiency, and corruption in the conduct of his government.

Only For Free People

The right to choose public officials by secret ballot is a right enjoyed by the free people of a representative form of government, and yet the extent to which this hard-

won privilege is neglected or ignored by millions of eligible voters in the United States is nothing short of appalling. Someone has said that "American citizens will die for democracy, pay taxes for it, and give blood for its soldiers, BUT VOTE? It takes a revolution or a miracle to arouse them."

Figures are dull but cannot be ignored: Out of approximately 87,000,000 eligible voters in 1948, only 48,000,000 voted in the National election. In other words, 39,000,000 stayed at home. And in the Primaries of that year only 24,000,000 voted, less than one-third. But when something goes wrong the

non-voters are the ones who yell the loudest about "those fellows down in Washington." We hear so often, too, "It's only a Primary election." But Primaries are where candidates are chosen, and if Primaries are not important, why have them at all?

All elections are important. If the two-party system of government is to be maintained in this country every eligible voter should vote in every election for the candidate of his choice from constable to President of the United States. By our very neglect and indifference we contribute to whatever fault we may find in the operation of our government, whether local, state, or national.

Every Vote Counts. Another prevailing attitude that "my vote doesn't count" is a snare and delusion; it plays right into the hands of those who are dedicated to corruption and subversion. It paves the way for despotism in one form

or another. Moreover, a single vote has, in a number of instances, determined history's course:

Two of our most famous Presidents, Thomas Jefferson and John Quincy Adams, were each elected by a single vote in the Electoral College. Rutherford B. Hayes was elected President by one vote. His election was contested and referred to an electoral commission, and he won by a single vote.

Just one vote gave Statehood to California, Idaho, Oregon, Texas, and Washington.

A congressman from Missouri was elected by a margin of 309 votes, while 63,000 qualified voters in his district stayed away from the polls. A Pennsylvania congressman in the same election noted in by a margin of 500 votes, with 40,000 voters not bothering to say yes or no. Each of these "stay-at-home" voters doubtless was saying to himself, "What does one vote matter?"

In light of the foregoing, it would seem that one vote counts for an awful lot. To be on the safe side, VOTE IN EVERY ELECTION; VOTE FOR ANYONE YOU PLEASE, BUT VOTE.

Get What We Earn

The following table sets forth the percentage of eligible citizens voting in recent elections in various countries:

Belgium	96%
Italy	89%
Great Britain	82%
France	75%
Japan	70%
United States	51%

It will be noted that the percentage of American voters who do not exercise their right of franchise is extremely large compared with other countries.

In the last analysis votes win elections, nothing else. Crooked politics, vote buying, political machines, special interests, Wall Street—all of these combined wouldn't get to first base if the millions of "stay-at-homes" would come out and vote. To be frank about it, we get just the kind of government we earn by our votes, no better, no worse.

Important Choice Now

As already observed, all elections are important, but, in the writer's judgment, the forthcoming Presidential election, in many respects, is the most important in our entire history. Never before has so much confusion, anxiety, apprehension, and distrust prevailed in both our domestic affairs and our interna-

tional relations. Having been maneuvered, as it were, into world leadership, it is incumbent upon everyone of us to take thoughtfully and seriously our citizenship obligations. Let us do our part by keeping ever in mind our rich, God-given heritage of universal liberty and freedom.

Woodrow Wilson, addressing the cadets of the United States Military Academy, said:

"America came into existence for a particular reason. It was as if in the Providence of God a continent had been kept unused and waiting for a peaceful people, who loved liberty and the rights of man more than they loved anything else, to come and set up an unselfish commonwealth x x x."

"There is none like it in the whole annals of mankind—men gathering out of every civilized nation in the world on the unused continent and building up a policy exactly to suit themselves; not under the domination of any ruling dynasty or royal family, but doing what they pleased with their own life on a free space of land which God had made rich with every resource necessary for the civilization they meant to build. THERE IS NOTHING LIKE IT."

Need More Than Talk

Yes; there is nothing like it, but to maintain and perpetuate it, we must do more than talk about it. We must fight by utilizing the best of our ability every citizenship right and privilege at our command.

During one of our notable world heavyweight championship bouts a spectator at the ringside kept up a running fire for abuse at the champion, criticizing both his style and his courage. Finally, between rounds, the champion leaned over the ropes, smiled, and said to his critic: "My friend, you're down there talking; I'm up here fighting."

No; to be "down there talking" is not enough. If our representative form of government is to survive, all of us have to be "up here fighting" at every available opportunity.

You're off in a Swirl of Power!

WE'RE willing to wager that not one person in a hundred knows what really goes on inside an automobile engine—so let's take this by easy stages.

The instant you nudge Buick's Fireball 8 Engine into action—a whole string of things starts to happen.

Eight sparks begin to crackle in well-timed sequence. Eight pistons start gliding up and down with rhythmic precision. Eight pairs of valves dance open and closed—to let fuel charges in, exhaust gases out of cylinder after cylinder.

All right, you say, what's so complex about that? Can't anyone build an engine that does this to perfection?

Well, we'd better add, these things happen at the rate of more than 10,000 times per mile—and that's 100 times per second at 35 miles an hour!

So—it's important to know that Buick uses a deep-breathing valve-in-head design that shoots a fuel charge in—cleans exhaust gases out—in a hurry.

It's important to know that all the power released by the fuel concentrates its driving force right on the head of each Buick piston. (Everyone who has recently built "new" high-compression engines copied this "Buick first.")

But most important of all—Buick adds one more twist which others still haven't copied.

Every charge of fuel rushing into a Buick engine becomes a twisting, swirling, high-compressed ball that flashes with sudden, consuming completeness the instant the spark sets it afire.

And to add this all up: clean, complete combustion—10,000 times per mile—is the secret of getting more power—more

miles—from each gallon of gasoline.

So we're not simply using picture words when we tell you that Buick—and only Buick—has a FIREBALL ENGINE—or that you're off in a swirl of power with one of these high-powered performers under the hood.

1952 has brought a lot of sparkling new improvements which you'll want to see and admire when you come to our showrooms.

But the thrill of thrills is still what you and a Buick—and a Fireball 8 Engine—can do out on the road. When do you want to try a sample?

Equipment, accessories, trim and models are subject to change without notice.

Sure is true for '52

St. Patrick is the patron saint of the Harrisburg diocese. Wednesday will be the Feast of St. Joseph and the intention of the mass will be for the temporal welfare of the members of the parish. Masses on Wednesday, Thursday, Friday and Saturday mornings will be distributed outside of mass at 7 a.m. Mid-week Lenten devotions will be held Wednesday evening at 7:30 o'clock. At the Sunday morning masses in St. Aloysius church, the Rev. Fr. Edward J. Shanahan read a pastoral letter announcing that the annual collection for the Bishop's Relief fund will be received next Sunday, Lae-

ture Sunday.

Visitation Day will be held at the Littlestown grade school on Tuesday from 8:35 a.m. to 3:25 p.m. Parents and friends of the elementary school children are invited to visit the classrooms and experience a typical school day; thus no special entertainment has been arranged.

Ruth Bucher will be in charge of the lesson discussion at the monthly meeting of the Girls' Guild of St. Paul's Lutheran church on Tuesday evening at 7:30 o'clock at the church.

The members of the Littlestown Men's Chorus wish to extend their thanks and appreciation to all those who responded with votes for the chorus following their recent appearance on the television show "Reward for Talent" from Baltimore. Local citizens showed their interest in the chorus by sending in a large number of postal cards voting in favor of the group.

The final rehearsal in preparation for the chorus engagement at Jacksonville EUB church, Walnut Bottom, will be held on Thursday evening at 9 o'clock at St. Paul's Lutheran church. The group will sing at the Evangelical and United Brethren church on Sunday evening, leaving town from St. Paul's church at 6 o'clock.

On Sunday, April 20, the chorus will present a concert at the Shippenburg State Teachers' college in the newly built chapel there. The program is being sponsored by the college Inter-Faith association of which James Motter, formerly of Littlestown and a third year student at the school, is the vice president. Mr. Motter, a former member of the Men's chorus, will participate in several choral selections.

The Men's Chorus has been invited to take part in a choral festival at Mt. St. Mary's college, Emmitsburg, on Thursday, May 1, 8:30 p.m., in the college gymnasium. Many Glee clubs or choral groups from colleges in this area will appear on the program. The chorus will be the only non-collegiate organization participating.

Approximately 20 members of Littlestown Boy Scout Troop No. 84, accompanied by Scoutmaster Edgar A. Wolfe, Assistant Scoutmaster Edward B. Gelman and Troop committee member L. D. Snyder, participated in a rock and mineral hike on Sunday. The scouts left town about 1:15 p.m. and returned by dusk. The hike took place at the Pigeon hills and transportation there was provided by Scoutmaster Wolfe, Mr. Snyder and W. E. Stites. Merle Kessler, scoutmaster from Hanover, was the guide. The group hiked about five miles and brought home some samples of their findings.

The weekly troop meeting will be held on Wednesday evening at 7:30 o'clock in the basement of the Littlestown State bank building. Movies of last year's scouting activities and some older ones will be shown. A second class hike is scheduled for this coming Sunday afternoon. The group will hike about five miles with Dean Sell, a member of Senior Post No. 84, as the leader.

One Cat Ties Up
Lehigh Railroad

Pittsford, Pa., March 17 (AP)—A cat tied up the Lehigh Valley railroad yards here yesterday until a boy armed with a shotgun killed him.

A New York passenger and freight train and a fast freight could not move out of the yards while the 15-pound, frothing cat was on the loose.

The cat came charging out of the brush at two car inspectors, Benjamin Thomas and Herbert Parkinson. Both men ran to a nearby shanty, locked the door and telephoned John Donovan, yardmaster. Donovan called the police. But in the meantime the cat ran all over the yard, sending railroad workers for shelter. When police arrived they were afraid to use their pistols because of the possibility of ricocheting bullets.

Finally the cat darted under the diesel heading for New York. It stayed there until the youth, George Bambringer, dashed up with his gun and shot the animal.

AIR STEWARDESS
SLAYS HER BOSS

St. Louis, March 17 (AP)—An attractive, 20-year-old air line stewardess told police she fatally shot a company official during a quarrel yesterday after he accused her of dating other men.

Lawrence E. Keil, 43, married and father of two children, was found in a parked automobile, wounded six times. He died a short time later.

Police Chief Browne Hargrove of suburban Overland said the Ozark Air Lines stewardess, Betty Lou Tracy, signed a statement admitting she shot Keil with his own gun.

"I fired the gun until it would not fire any more," the chief quoted the petite, green-eyed, brown-haired girl as saying.

Keil had been superintendent of stations for Ozark Air Lines since March 1. Before that he was regional traffic manager at Memphis, Tenn. Mrs. Marjorie Keil, 26, the widow, told newsmen she met Keil in Chicago when both worked for another air line (American). They had two girls, 2 years and 10 months old. She said Keil had been married previously and had a 16-year-old daughter.

Mrs. Keil said her husband hired

Find Substitute
For Blood Plasma

New York, March 17 (AP)—Scientists believe they have found a substitute for blood plasma—a new substance using red blood cells which are now largely wasted in getting plasma.

The product, known as modified human globin, has proteins taken from the red blood cells and prepared so that they can dissolve in human blood and feed the body like plasma.

Dr. Max Strumia, director of the John E. Sharp Research foundation, said over the week-end the globin could be produced more cheaply than plasma. He added that its use would increase the protein yield of each blood donation to "more than three times."

It is the protein part of plasma that is valuable when patients are given plasma for nutrition or to combat shock. A report on the use of the new product is to be presented shortly to the National Health Institute, a government agency in Washington.

Miss Tracy as a stewardess while he was at Memphis. Miss Tracy was booked for the St. Louis coroner and held without bond and without charge. An inquest was held for today.

FATHER AND TWO CHILDREN BURN

Johnstown, Pa., March 17 (AP)—A pre-dawn fire burned to death two young children and their father after they were overcome by smoke in bed.

The victims were Thomas Wherry, 37, of Johnstown; Marlene Wherry, seven, and Charles, three. The mother and wife, Mrs. Lily Wherry, 30, another of the couple's children and a young relative escaped.

Mrs. Wherry woke up about 5 a.m. yesterday to find the family's two-story frame home enveloped in flames. She groped her way to her husband but was unable to rouse him or her daughter, Marlene. Then the woman awakened Charles, James, 19, and the visitor, Shirley Mae Livingston, her 14-year-old sister.

The woman and three children made their way downstairs where Mrs. Wherry broke a window facing the burning sunporch to reach the telephone. While she was giving the alarm, three-year-old Charles broke away and hid. Flames drove his mother, James and the girl out of the house. The little boy's body was found later under a bed. The mother suffered a deep cut on the arm from jagged glass.

Firemen said the fire started from an overheated kitchen stove. The house was a total loss.

Washington, March 17 (AP)—Pennsylvania's two Republican senators split in voting last week on President Truman's reorganization plan for the Internal Revenue Bureau. Sen. James Duff voted in favor and Senator Edward Martin was opposed to the plan which was passed 53-37.

Bethlehem, Pa., March 17 (AP)—Lehigh university is to be the site for the annual officials clinic of the Eastern Collegiate Wrestling Coaches association this November.

Bungling In D. C. Is Assailed By Martin

Washington, March 17 (AP)—Sen. Edward Martin (R-Pa.) says a sharp increase of unemployment in Pennsylvania and a resultant 24 percent upswing in state relief during the last month is due largely to "bungling, inefficient planning down here in Washington."

In a radio speech last night Martin said the unemployment stems from government red tape in switching to defense production while materials are tied up in priority allocations and in its neglect of established unionized industry in awarding government contracts to "Johnny-come-lately non-union plants in the south."

"In recent weeks," Martin declared, "shirt and underwear factories have closed down in Altoona, Shippensburg, York, Quakertown and Richlandtown. The various companies involved, the clothing workers union and the officials of the towns which suffer from the closings all asked the armed services for contracts."

"This administration and its predecessors have done a great deal to encourage unionizing of labor in the north. The unions naturally have fought to push up wages for their members."

Washington, March 17 (AP)—Senate approval has been voted for Robert F. Oliver as postmaster of New Milford, Pa.

Merida, Mexico, March 17 (AP)—Ferdinand W. Coleman, 47, of Williamsport, Pa., a shopping newspaper publisher, was the only American among ten persons who lost their lives in the crash of a Transportes Aereos Mexicanos plane over the week-end.

Easton, Pa., March 17 (AP)—Ed Greaves, Greensburg, Pa., was elected one of two co-captains for the 1951 Lafayette college football team over the week-end. The other will be Jack Herbruck, Hawthorne, N. J.
